

Applications are now available for the Goods Movement Emission Reduction Program!

This program is designed to provide funds for equipment owners to retrofit, repower, and replace older equipment, engaged in the movement of goods, with new lower emitting units. The Central Valley has been awarded \$250 million dollars over the life of the program to fund eligible projects. Applications will be accepted until September 5, 2008.

\$50,000 to replace a 2003 or older truck with a new truck that meets 2007 emission standards; Tiered truck replacements and retrofits are also available

\$20,000 to repower a 2003 or older engine with a new engine that meets 2007 emission standards

\$5,000 to retrofit a 2006 or older truck with an ARB Verified Level 3 Diesel Particulate Filter

Eligibility Requirements:

- Operate a Class 8 On-Road Diesel Truck (greater than 33,000 GVWR) used to transport goods
- CA Registration for last 2 years (base plate or IRP)
- At least 50% travel in California's major trade corridors over the last 2 years (Central Valley, Bay Area, Los Angeles/Inland Empire, San Diego/Border)

For your convenience, **Application Assistance Workshops** will be held at the Regional Offices of the San Joaquin Valley Air Pollution Control District from 10:00 a.m. to 3:00 p.m. on the following dates and locations:

- August 4, 2008 – Bakersfield (1st floor Public Room)
2700 "M" St, Ste 275, Bakersfield
- August 6, 2008 – Fresno (San Joaquin Room)
1990 E. Gettysburg Ave., Fresno
- August 7, 2008 – Modesto (Magnolia Room)
4800 Enterprise Way, Modesto

For **applications and guidelines** please visit the "Grants and Incentives" section of our website.
